Education

Dr. APJ Abdul Kalam Technical University

Aug 2020 - May 2023

B.Tech in Computer Science and Engineering

Jamia Millia Islamia, New Delhi

Jun 2017 - May 2020

Diploma in Computer Science and Engineering

Technical Skills

Languages: JavaScript, TypeScript, Java, HTML5, CSS3

Frontend: React.js, Next.js, Redux, Tailwind CSS

Backend: Node.js, Express, REST APIs

DataBase: MongoDB, Mongoose, SQL, PostgreSQL

Tools: Git, VS Code, Postman, Vercel, Cloudflare

Methodologies: CI/CD, Responsive Design

Work Experience

Inzovia Web Solutions

Oct 2025 – Present

Software Developer

Remote

- Developed scalable and responsive web applications using React, Next.js, Tailwind CSS, TypeScript, and Node.js.
- Engineered modern, user-centric interfaces with React, resulting in a 15% improvement in overall user satisfaction.
- Built and integrated RESTful APIs with Node.js and Express.js to support seamless front-end and back-end communication.
- Optimized application performance and accessibility, consistently achieving 95+ Google Lighthouse scores.
- Integrated secure authentication and authorization systems (Auth.js, JWT) along with payment gateway solutions.

Digital Sketch And Technology

Jan 2024 – May 2025

Software Developer

New Delhi, Delhi

- Developed dynamic and responsive web apps using React, Next, Tailwind, TypeScript, and Node.js
- Designed and implemented responsive user interfaces with React, leading to a 15% improvement in user satisfaction scores.
- Developed and integrated RESTful APIs using Node.js and Express.js to support front-end functionalities.
- Optimized application performance achieving 95+ Lighthouse scores.
- Implemented state management using React Context API and Redux for complex applications.
- Integrated authentication systems (Clerk, Auth.js, JWT) and payment gateways.
- Utilized Git for version control and participated in code reviews to maintain code quality.

AK Digital World

Jul 2023 – Dec 2023

Web Developer - Intern

Sec-62, Noida, UP

- Collaborated with senior developers to build and enhance responsive websites using HTML5, CSS3, JavaScript, and React.js

Projects

Dev Tinder – Developer Matching Platform | React.js, Node.js, MongoDB, JWT, REST APIs

[Code](#)

- Built a real-time matchmaking web application for developers inspired by the Tinder swipe mechanism
- Implemented user authentication and authorization using JWT (JSON Web Tokens) for secure access control
- Created a backend with Node.js and Express.js to handle matchmaking logic, profile data, and chat features
- Designed an intuitive UI using React.js to enable swiping functionality for developer profiles
- Integrated MongoDB with Mongoose to store user profiles, matches, and chat messages
- Developed a real-time chat system allowing matched developers to communicate seamlessly
- Applied responsive design principles to ensure smooth user experience across all device types

QuickThreads – Social Posting Web App | Next.js, Tailwind CSS, MongoDB, Clerk

[Code](#)

- Developed a full-stack Threads-inspired social media platform with user-authenticated
- Built the frontend using Next.js and Tailwind CSS to ensure a clean and responsive UI across all devices
- Integrated Clerk for secure user authentication
- Set up MongoDB with Mongoose to manage users, posts, interactions, and thread data
